# Primary Job Roles and Responsibilities

---

## Fathom (September 2013 - April 2015)

Lead front-end developer for a highly interactive real-time trading platform application, developed from scratch beginning September 2013 and successfully launched in August 2014 (still under active development). Ongoing roles included architecture planning, development of in-house component library used across prototypes and live apps, performance tuning/profiling, internal build tools, technical leadership, timing estimations, teaching and supervising other developers, hiring new developers.

## R/GA (February 2013 - August 2013)

Developed a promotional responsive site for an upcoming Heineken product ([the-sub.com](http://the-sub.com)), and worked on the planning stages of a major new international e-commerce site (still under NDA). Roles included front-end architecture planning, tooling/build setup, JavaScript/SASS/Compass development, integration of HTML5 video with CSS3 animations, and Flash prototyping/mockups for animations.

## Burberry (August 2011 - January 2013)

Development of JS/CSS Framework (used across all interactive experiences on burberry.com, live streamed fashion shows, press kits and in-house tools), automation / build process improvements, technical research, supervising other freelance developers, hiring new developers.
